## INTRODUCTORY NOTE

In order to make available statistical information as soon as it is assembled, the practice of binding in parts the Biennial Report of the State Superintendent of Public Instruction was begun in 1924.

For the biennium 1944-1946, the following parts of the complete report are issued separately:

Part I. SUMMARY AND RECOMMENDATIONS. This is a general review of the public school system along with recommendations for the consideration of the Governor and General Assembly—published under title "North Carolina Public Schools."

PART II. STATISTICAL REPORT, 1944-1945. This part presents data pertaining to the public school situation for the year 1944-1945.

Part III. STATISTICAL REPORT, 1945-1946. This part gives information for 1945-1946 similar to that in Part II for the preceding year.

TABLE V. SUMMARY OF ENROLLMENT

This summary shows by race for 1944-1945: the enrollment by schools (codes a + c + d + e) for all North Carolina administrative units; those enrolled in two or more schools within same unit or system (pupils coded c), permitting the enrollment by units (codes a + d + e) to be obtained by subtraction; those enrolled in two or more units (pupils coded d); the net State enrollment (codes a+e); those coming from other States (pupils coded e). The U. S. Office of Education desires pupils coded a—secured by subtraction.

This presentation illustrates the ambiguity of the term *enrollment*; there are four sets of figures. Net enrollment reduced to average daily basis is called average daily membership; see Tables I and IV.

TABLE VI. WHITE ENROLLMENT (a+e) BY YEARS

This summary shows by grades the net enrollment (a+e) in all white schools of the State over a period of twelve (12) years. By noting the figures just above the heavy horizontal lines, one may observe the lack of normal progress through the grades: 95,484 pupils in first grade in 1933-1934 as compared with 7,591 in twelfth grade eleven years later or 26,850 in eleventh grade ten years later.

With 95,484 as base, percentage calculations show the proportion of losses or retardation from grade to grade.

TABLE VII. NEGRO ENROLLMENT (a + e) BY YEARS

This summary shows by grades the net enrollment (a+e) in all North Carolina Negro schools over a period of twelve (12) years. Note the figures just above the heavy horizontal lines to see the lack of normal progress through the grades: 91,911 in first grade in 1933-1934 contrasted with 6,601 in eleventh grade ten years later.

The percentage calculations use 91,911 as base to show losses or retardation from grade to grade.

This summary gives the age-grade distribution of all different white children enrolled (a+e) in the schools of the State during 1944-1945. The number and percentage of pupils in each grade are shown. This number is then divided into: pupils under age for their grade, those of normal age, and those over-age by one, two, three, four, five or more years. There are three sections of the table: (1) all white pupils; (2) rural white pupils; (3) city white pupils.

TABLE IX. NEGRO ENROLLMENT (a + e) BY AGE AND GRADE

This summary gives the age-grade distribution of all different Negro children enrolled (a + e) in the schools of the State during 1944-1945. The number and percentage of pupils in each grade are shown. This number is then divided into: pupils under-age for their grade, those of normal age, and those over-age by one, two, three, four, five or more years. There are three sections of the table: (1) all Negro pupils; (2) rural Negro pupils; (3) city Negro pupils.

TABLE X. COMPOSITION OF STATE ENROLLMENT

This tabulation puts together a series of data in an effort to estimate the composition by grades and race of enrollment (a+e) for the year 1944-1945 and to show as probable losses former pupils not entering school this year. The losses of Table XI represent children who enrolled and quit school during the year; the probable losses of this table did not enter school.

The sum of the four columns of this table will equal enrollment (a+e) of Tables V, VIII and IX.

TABLE XI. ENROLLMENT, LOSSES, MEMBERSHIP BY GRADES

This tabulation—a summary of several tables—shows by grades for the State (also county and city systems) during 1944-1945: the number of different pupils enrolled (a+e), the number dropping out of school or losses, membership on last day and the percentage of enrollment which quit school. See Table X for probable losses caused by failure to enter school.

TABLE XIII. MEMBERSHIP AND PROMOTIONS BY GRADES

This tabulation shows by grades and race for 1944-1945: the membership on last day of school, the number of pupils promoted, permitting the number not promoted to be obtained by subtraction, and the percentage of membership which was promoted.

The losses of Table XI are not considered in this percentage calculation. A tabulation which gives percentages based upon enrollment (a+e) follows as Table XIV.

\* In this index, 900 is the maximum; that is if all teachers held the Graduate Certificate, the index would be 900.

TABLE XVI. EXPERIENCE RATING OF TEACHERS

This summary gives the experience ratings for 1944-1945 of those teachers paid from the Nine Months' School Fund provided by State; those paid from locals funds are excluded. Since only 11 increments were allowed on Graduate certificates, 9 on Class A, 6 on Class B, etc., the experience shown is not the actual number of years taught but the number for which compensation was paid.

Classified principals are not included; see following table.

TABLE XVIII. SALARY SCHEDULES FOR TEACHERS AND PRINCIPALS

This tabulation gives in monthly amounts the salary schedules during 1944-1945 for the majority of teachers and for classified principals. No data are shown for vocational teachers, building principals or superintendents. The bonus paid by State and supplements paid by local units are not included. Maximal and minimal schedules were discontinued.

The teacher's schedule (A) is based upon years of training, which determine the type of certificate held, and years of teaching experience. A Master's degree is one requirement for Graduate certificate.

The principal's schedule (B) is based upon size of school and number of years served as principal. There is an increase in principal's pay for every additional teacher—from 7 to 50; not all steps in the schedule are shown but a sufficient number to indicate the trend. A Master's degree is required for the last three ratings—P-6 to P-8, inclusive.

TABLE XIX. INSTRUCTIONAL AND SUPERVISORY PERSONNEL

This table gives for each administrative unit of the State during 1944-1945 a distribution of instructional and supervisory personnel—employed from all sources of funds—by race and grade-level. Teachers, as distinguished from principals and supervisors, are also divided according to sex.

The summary shows for North Carolina the number of teachers in elementary schools (grades 1-8), the number in high schools (grades 9-12), the number of vocational teachers, the number of principals and supervisors, the number of clerical assistants, the number of superintendents; then relates the instructional personnel to average daily membership and average daily attendance, as given in Table I.

Where fractions appear, teachers are working in both elementary and secondary fields or teaching and supervising.

TABLE XXI. SCHOOLHOUSES AND SCHOOL PROPERTY

This table gives by race for each county and city unit of the State during 1944-1945: the estimated value of school property, the number of schoolhouses owned, the average value of schoolhouses, the total number of classrooms and the average number of classrooms per school. With races combined, the table also shows for each unit: the value of school property, total number of schoolhouses and their average value.

The summary gives several details of valuation for all (170) school systems and relates these figures to the number of schoolhouses, to classrooms, to teachers and to pupils.

## GENERAL STATISTICS

TABLE XXII. NUMBER OF ELEMENTARY SCHOOLS TAUGHT—BY SIZE

This table shows by race and in combination for each county and city system of the State during 1944-1945: the number of elementary (grades 1-8) schools taught—distributed according to number of teachers employed.

An 8th grade housed with high school is not counted as elementary school but two grades (7th and 8th) as part of junior high school are considered an elementary school in this enumeration.

The summary gives the North Carolina total for each race with division between counties and cities. There also appears the number of separate elementary schools, as distinguished from union schools (elementary and secondary).

## GENERAL STATISTICS

TABLE XXIII. NUMBER OF HIGH AND UNION SCHOOLS TAUGHT

This table shows by race for each county and city system of the State during 1944-1945: the number of high (grades 9-12) schools taught and the number of union schools (elementary and high). Distribution of high schools (offering instruction above 8th grade) is according to number of teachers employed; division of union schools is by grade-level groups.

The summary gives the North Carolina total for each race with division between county and city units. There also appears the number of separate high schools, as distinguished from union schools.

TABLE XXIV. NUMBER OF SCHOOLS TAUGHT—BY GRADE LEVEL

This summary shows by race for 1944-1945 the number of schools which attempted various grade levels of instruction. For elementary (grades 1-8) there are three types of schools: primary, grammar and elementary. Primary schools are defined as those which go no higher than grade 5, beginning with the first grade; grammar schools teach only the intermediate grades, as 4-6, 6-8, or 7-8; elementary schools cover grades 1-6, 1-7, or 1-8.

For secondary schools the grouping is by years of instruction offered above eighth. One-year high schools teach only 9th grade, two-year high schools have grades 9-10, etc. A junior high school of grades 7-9 is considered here as a grammar school (grades 7-8) and a one-year high school.

TABLE XXIX. COMPARISON OF NORTH CAROLINA SCHOOLS WITH NATIONAL AVERAGE

This compilation—a summary of many comparisons—gives at stated intervals the national average, the average for North Carolina and the relative position of North Carolina among forty-nine states (District of Columbia included) for twenty-two items. The items chosen are objective and in their respective fields may be an index of efficiency. Source of data is usually U. S. Office of Education in publication *Statistics of State School Systems*.

\* The apparent decrease for cities is due to change of territory for administrative purposes. In 1932-1933 there were 93 cities and towns operating as units of administration; in 1933-1934 these were reduced to 67, the 26 smaller towns being transferred to county systems.

TABLE XXXIII. FREE BASAL TEXTBOOKS FOR ELEMENTARY SCHOOLS

TABLE VII. EXPENDITURES FOR GENERAL CONTROL

This summary shows administrative expense (except State) for all public elementary and secondary schools of North Carolina during 1944-1945. The amounts paid superintendents and clerical assistants are reduced to average annual basis.

Average salaries were determined by a division of amounts paid (codes 611 and 644 for superintendents, codes 613 and 627-1 for clerks) by the number of people employed, as shown on Table XIX of Section I.

A separation of administrative costs between races, also shown, was made by pro-rating average daily membership in each unit.

Expenditures for State administration—not recorded here—are set forth in the last table of Section III.

# TABLES VIII AND IX. EXPENDITURES FOR INSTRUCTIONAL SERVICE

These two tables give by race for each county and city school system of the State during 1944-1945: the amount of salaries paid teachers in elementary and secondary schools; the amount paid principals and supervisors; the cost of supplies, of text books (free to pupils) in grades 1-7 of elementary schools, of vocational education and of all other items of instructional service. Table VIII is devoted to instruction in elementary schools (grades 1-8); Table IX gives data for instructional costs in secondary schools (grades 9-12).

The summary of the two tables shows by race the average salaries paid teachers and principals during 1944-1945. For number of people employed, see Table XIX of Section I. Since the cost of vocational education is coded separately (626), all vocational teachers were deducted from the total of Table XIX before computing the averages. Expenditures for vocational education (code 626) are reduced to a per-teacher basis; these average figures include travel and other expense as well as salaries.

† Calculations have shown that the difference between the unweighted average and the weighted, which takes valuations into consideration, is not large enough to be significant.

TABLE XVII. CITY TAX RATES, 1944-1945

This table shows for 70 cities or towns of the State—those operating as school administrative units, arranged alphabetically by counties—the property tax rates levied during 1944-1945 for schools, for purposes other than schools, the total rate and the percentage which went for schools. Taxes levied by counties (see preceding table) are additional.

At the bottom of table is an unweighted average of city tax rates for eleven (11) years.

† Calculations have shown that the difference between the unweighted average and the weighted, which takes valuations into consideration, is hardly large enough to be significant

TABLE XVIII. SUPPLEMENTARY TAXES, 1944-1945

This tabulation gives a summary of taxes levied for supplementary purposes in 1944-1945. While Table XVI shows 97 counties levying a tax for Current Expense, many of these levies were for Maintenance and Fixed Charges—objects not supported by the State—rather than for supplementary purposes. Two (2) counties, as shown below, had voted a supplementary tax: New Hanover, Scotland. The forty-seven (47) cities which had a supplement may be found on Table XVII.

The districts within counties which levied a supplementary tax in 1944-1945—along with the rates levied—are listed below.
